FOREWORD

The data presented herein were collected by the 11th annual Higher Education General Information Survey (HEGIS XI), Financial Statistics of Institutions of Higher Education for Fiscal Year Ending 1976.

An eight-page report on the preliminary tabulations of selected financial statistics was released March 31, 1977. This publication, however, provides the complete, edited data on the current operations and the property characteristics of the Nation's colleges and universities. The data cover the following: current funds revenues, expenditures, and mandatory transfers; physical plant assets; indebtedness on physical plant; endowment; and the changes in fund balances. A subsequent publication will provide analysis of these data along with summary tables. In addition, HEGIS XI collected data for inclusion in the Governmental Finances series published by the Bureau of the Census.

Finance data for fiscal year 1976 and earlier years are available on computer tapes, which may be purchased from the National Center for Education Statistics; computer tabulations from these tapes may be ordered. Inquiries concerning these tapes or tabulations should be directed to EDSTAT, National Center for Education Statistics, Room 3033, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

The National Center for Education Statistics deeply appreciates the cooperation of the Nation's college and university business officers and other officials who supplied these data and of the State coordinators who assist in the collection and review of data from their States.

Division of Postsecondary and

INTRODUCTION

The institutions in this publication are grouped by level of the individual "institutional unit." That is, universities and their university-level branches are aggregated under the heading "universities," their 4-year branches and other 4-year institutions under "other 4-year institutions," and 2-year branches and separate 2-year colleges under "2-year institutions." Together, they form the 3,055 institutions, or "population of inquiry," included in the 11th annual Higher Education General Information Survey conducted by the National Center for Education Statistics.

Of the 3,055 institutional units, 2,834 completed questionnaires were returned, for a 93-percent response rate. Data were imputed for the remaining, nonrespondent institutions, which accounted for less than 3 percent of the dollars reported.

Two methods were used to account for nonresponse. If the institution had reported data in a previous year, those data were adjusted according to trends established in past HEGIS surveys and entered as the institution's fiscal year 1976 report. If no previous data were available, 1976 data were used from peer institutions--selected for location (State or region); level and enrollment size of institution; and, wherever possible, institutional control.

The population of inquiry and numbers of respondents and nonrespondents are shown in appendixes A, B, and C, respectively, by level and control of institutional unit and by region and State or other area. The institutions that did not respond or did not provide adequate data are listed in appendix D. A reproduction of the form with aggregate United States data appears as appendix E, which also contains instructions and definitions for the financial portion of the survey.

BASIC TABLES

NOTES.—Data are rounded to the nearest thousand. Therefore, a zero indicates that the amount reported was less than $500.

Aggregate United States includes the 50 States and District of Columbia and the outlying areas of the United States. The data for the U.S. Service Schools are included with the Aggregate United States and the 50 States and D.C. totals.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

HIGHER EDUCATION GENERAL INFORMATION SURVEY (HEGIS XI)

DEFINITIONS AND INSTRUCTIONS

FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1976

(OMB NO. 51-R0566)

STATEMENT OF CHANGES

Parts A and B have been changed to coincide with the recently published standards of college and university financial reporting. The categories of current funds revenues, current funds expenditures, and transfers are now consistent with the *College and University Business Administration: Administrative Service* (published in 1974 by the National Association of College and University Business Officers), the *Higher Education Finance Manual* (published in 1975 by the National Center for Education Statistics), and with the *Audits of Colleges and Universities* (as amended August 31, 1974 by the American Institute of Certified Public Accountants).

Part F has been modified to include separate columns for unrestricted current funds and restricted current funds.

Part G is designed for use by the Bureau of Census, U.S. Department of Commerce. It is to be completed by publicly controlled institutions only. The instructions, definitions, and reporting procedures for Part G may differ from those given in the aforementioned publications.

GENERAL

If you need clarification on any of the definitions or instructions, please call Mr. Paul Mertins, the survey director or Mr. Norman Brandt, associate survey director, at (202) 245-8392 in Washington, D.C.

To avoid unnecessary overlapping of Federal surveys of the finances of your institution, this survey is designed to include the financial statistics previously collected by the U.S. Department of Commerce, Bureau of the Census Form F-15.

Please attach supplemental information, comments, etc., on a separate sheet.

Do NOT report funds received or disbursed for Basic Educational Opportunity Grants (BEOGs) anywhere on this survey form.

All data reported should be whole dollars only, omit cents.

Please complete this survey and return it to the U.S. Department of Health, Education, and Welfare, Education Division, National Center for Education Statistics, ATTENTION: Room 2164-HEGIS, 400 Maryland Avenue, SW., Washington, D.C. 20202, not later than October 31, 1976.

NOTE: This year's form is in seven parts. For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below will be referred to by their line numbers.

SPECIFIC

These definitions are consistent with those given in the Higher Education Finance Manual (HEFM).

Part A. Current funds revenues by source for fiscal year ending 1976

Instructions for Part A. Current funds revenues include all unrestricted gifts and other unrestricted revenues earned during the fiscal year and restricted current funds to the extent that such funds were expended for current operating purposes.

LINE 1. Tuition and fees. Report all tuition and fees assessed against students for current operating purposes. Include tuition and fee remissions or exemptions even though there is no intention of collecting from the student. Include here those tuitions and fees which are remitted to the State as an offset to the State appropriation. (Charges for room, board, and other services rendered by auxiliary enterprises are not reported here. See line 16.)

LINES 2, 3, and 4. Governmental appropriations include all amounts received from or made available to the institution through acts of a legislative body, except grants or contracts. These funds are for meeting current operating expenses and NOT for specific projects or programs. Examples are Federal land-grant appropriations and Federal revenue sharing funds (line 2). Federal appropriations received through State channels is a subset of line 2 and should be included in the line 2 total for Federal appropriations.

LINES 5-10. Governmental grants and contracts. Report revenues from governmental agencies which are for specific research projects or other types of programs. Examples are research projects, training programs, and similar activities for which amounts are received or expenditures are reimbursable under the terms of a government grant or contract. Amounts equal to direct costs incurred should be recorded as charges against current restricted funds and reported as restricted current funds revenues (lines 6, 8, and 10). Related indirect costs recovered should be reported as unrestricted revenues (lines 5, 7, and 9). Do not include BEOGs.

LINES 11 and 12. Private gifts, grants, and contracts. Private gifts and grants include revenues from private donors for which no legal consideration is involved. Private contracts include those funds for which specific goods and services must be provided to the funder as stipulation for receipt of the funds. Include only those gifts, grants, and contracts that are directly related to instruction, research, or public service. Moneys received as a result of gifts, grants, or contracts from a foreign government would be reported here. Include the estimated dollar amount of contributed services on line 11.

LINES 13 and 14. Endowment income. Report: (1) the unrestricted income of endowment and similar funds; (2) restricted income of endowment and similar funds to the extent expended for current operating purposes; and (3) income from funds held in trust by others under irrevocable trusts. Do not include capital gains or losses.

LINE 15. Sales and services of educational activities. Report revenues derived from the sales of goods or services that are incidental to the conduct of instruction, research, or public service. Examples include film rentals, scientific and literary publications, testing services, university presses, and dairy products.

CONTINUED ON NEXT PAGE

LINE 16. Sales and services of auxiliary enterprises. Report here all revenues generated by the auxiliary enterprise operations of the institution. Auxiliary enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, college unions, college stores, barber shops, etc.

LINE 17. Sales and services of hospitals. Include the revenues (net of discounts and allowances) of a hospital operated by the institution. Do NOT include here gifts, grants, appropriations, research revenues, or endowment income. Include revenues of health clinics that are part of the hospital unless such clinics are part of the student health services program.

LINE 18. Other sources. Include all items of revenue not covered elsewhere. Examples are interest income and gains (net of losses) from investments of unrestricted current funds. Include revenues resulting from the sales and services of internal service departments to persons or agencies external to the institution.

LINE 19. Independent operations. Include all revenues associated with operations independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public service) although they may indirectly contribute to these programs. This category generally includes only those revenues associated with major Federally Funded Research and Development Centers.

LINE 20. Total current funds revenues. Report here the sum of lines 1 through 19 inclusive.

Part B. Current funds expenditures and mandatory transfers for fiscal year ending 1976

Report both unrestricted and restricted current funds expenditures in the following functional classifications:

LINE 1. Instruction. Expenditures of the colleges, schools, departments, and other instructional divisions of the institution and expenditures for departmental research and public service which are not separately budgeted should be included in this classification. Include expenditures for both credit and noncredit activities. Exclude expenditures for academic administration where the primary function is administration (e.g., academic deans). This category includes the following: general academic; occupational and vocational instruction; special session instruction; community education; preparatory and adult basic education; and remedial and tutorial instruction.

LINE 2. Research. This category includes all funds expended for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. Do not report nonresearch sponsored programs (e.g., training programs).

LINE 3. Public service. Report all funds budgeted specifically for public service and expended for activities established primarily to provide noninstructional services beneficial to groups external to the institution. Examples are seminars and projects provided to particular sectors of the community. Include expenditures for community services and cooperative extension services.

LINE 4. Academic support. This category includes expenditures for the support services that are an integral part of the institution's primary missions of instruction, research, or public service. Include expenditures for libraries (line 5), museums, galleries, audio/visual services, computing support, ancillary support, academic administration and personnel development, and course and curriculum development. (Include line 5 expenditures in the line 4 total for academic support.)

LINE 6. Student services. Report funds expended for admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instruction program. Examples are career guidance, counseling, financial aid administration, student health services (except when operated as a self-supporting auxiliary enterprise).

Examples of auxiliary enterprises facilities are those used for operation of housing, food service, bookstores, and other units which are classified as auxiliary enterprises. LINE 1. Value of endowment at the beginning of the fiscal year. Report the book value of endowment in the first column and the market value in the second column. (If market value on some investments is not available, use whatever value was assigned by the institution in reporting market values in the annual financial report.)

LINE 5. Appreciation or depreciation for the year (market value only). Report in column (2) the increase (appreciation) in market value of all investments. Deduct any loss (depreciation) of value and report a net figure. Do not report in column (1).

LINE 4. Net increase (decrease) for year. Report the net change in fund balances from the beginning to the ending of the fiscal year. It is the difference between lines 6 and 5. A net increase is reported as a positive figure and a net decrease is reported as a negative figure (in parentheses).
